## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1-5,8,15-20 and 37-40 are rejected under 35 U.S.C. 102(e) as being anticipated by Golub et al (US6,647,341 Nov. 11, 2003).

Golub et al teach a method of classifying a lymphoma by determining a gene expression profile of gene expression products from two or more informative genes wherein gene expression products are isolated from one or more cells (see whole doc. esp. col.2 line 31 & col.

4 line 45-50) and wherein the gene expression profile is correlated with treatment outcome thereby classifying sample with treatment outcome (see col. 8 line line 15-24).
